

### WHAT IT'S FOR

- ✓ Protects and enhances the original colour of shiny, polished, untreated and tumbled natural stone.
- ✓ Penetrates deep down, protecting the material from water and oily stain and dirt.
- ✓ Ideal for tops, inlay patterns, decorative pieces.
- ✓ Perfect for indoors and out.

### ADVANTAGES

- It enhances the colour of any kind of finish.
- For indoors and out.
- Does not yellow, is UV resistant and it provides long-lasting protection (ASTM G154).
- A little goes a very long way.
- Eliminates weaknesses in granite.
- Does not form surface film.
- Certified as suitable for contact with foodstuffs. (Italian Ministerial Decree 21.03.73).

### MATERIALS

- GRANITE
- MARBLE
- STONE AND AGGLOMERATES

### HOW TO USE IT

**Dilution.** The product does not need diluting, it is ready for use.

**Application.** Apply **FILAFT STONEPLUS UP** to clean dry material, using a paintbrush, sponge or other applicator. Work in during application with a sponge or cloth and completely remove any excess. The surface is ready for use after about eight hours. For better colour enhancement, apply several coats of the product, waiting at least eight hours between applications.

**Maintenance.** Diluted **FILACLEANER** or **FILAPS87** solution.

**Warning:** *Once treated with FILASTONE PLUS, the stone can no longer be restored to its original condition: carry out a spot test to check the colour-enhancing effect. On some materials installed outdoors, we recommend reapplying the product every year to maintain the optimum colour-enhancing appearance. It does not protect marble or calcareous stone from acid stains. Wait for treated material to dry completely before handling with suction cups.*

### OPERATORS & SYSTEMS

Contains no hydrocarbon solvents, so no aspiration system is required.

Technically odourless, does not contain hydrocarbon solvents.

No PPE necessary (Personal Protective Equipment).

We recommend gloves be worn when handling the product.

**Composition:** Blend of polymer silicones dissolved in deaeromatised hydrocarbon solvent.

**Shelf life:** 5 years for sealed product stored indoors at a temperature of 20°C.

**Sizes:** 1 litre tins: in boxes of 6.  
5 litre tin: in boxes of 4.

#### Chemical-physical characteristics

- Appearance: clear liquid
- Colour: colourless
- Odour: typical of solvent
- Density: 0.874 kg/l
- Flash point: 40°C
- Dangerous for transport

#### Safety warnings

**Warning.** Danger - Hazard statements: flammable liquid and vapours. May be fatal if swallowed and enters airways. Causes serious eye irritation. Repeated exposure may cause skin dryness or cracking. **Precautionary statements.** If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly closed. Wear protective gloves / protective clothing / eye protection / face protection. If swallowed: immediately call a poison centre or doctor/physician. Dispose of contents / container in accordance with the regulations in force. Contains: naphtha (paraffin), hydrotreated heavy fraction.
